

Narrator: It is important to note the Industrial Revolution and the fact that it started in the 1700s. I've provided you with a variety of links to explore the Industrial Revolution further, but I invite you to use these articles just to get a flavor of the era and what was going on. Become familiar with who the important vendors were, the trends, and, of course, the writings of Adam Smith. It isn't until the 1800s that the Industrial Revolution and its impact upon the arts is felt.
