

**Speaker:** I anticipate that you have questions arise during this course. Everything from having to negotiate your way through the course questions on deadlines as well as making sense of the course content. You do not have to puzzle your way through this on your own. Please email me your questions. I will do my best to get a response to you quickly.

It is also possible to text/chat with me via google. If you have Skype, I can be reached for a voice chat on Skype @lisa.net. If you really think a face-to-face meeting will be beneficial, it would be possible to arrange a meeting virtually with me or actually my avatar, Aussie Varnish at a designated time and place on Second Life.
